

SAU Selection of Professional Practice Models for PEPG Systems

This table represents those SAUs that have indicated to the Maine DOE a conclusive selection of a professional practice model for teachers and/or principals as part of a Performance Evaluation and Professional Growth system. The purpose of the information is to provide data to all SAUs who may wish to collaborate with others in the development of resources related to a particular practice model and to support SAUs who have not yet made a selection. In the table, the SAU names are organized horizontally to capture selection of both teacher and principal models by an SAU; an SAU that has selected both will appear twice in the same row across the table. Vertically, the names are organized by region, top to bottom: Aroostook, Penquis, Washington, Midcoast, Western ME, Kennebec Valley, Cumberland, York.
