

Staying Safe at Work

Free Virtual Training

Join us for a free virtual training that teaches the foundational skills of job safety for people with intellectual and developmental disabilities. The training is interactive, accessible, and fun. Each session will be captioned and will alternate between group instruction and small breakout room activities.

Training Options

First Training Option

One Five-Hour Training

Second Training Option

One Three-Hour Training
and One Two-Hour Training

Who Should Attend

This training is designed for **under-served workers**, including workers with low literacy skills or limited English proficiency, workers with Intellectual and Developmental Disabilities, and young workers, to teach them the skills to be safe while working; **employers** to help their employees with disabilities be safer; **Special Education Teachers / Vocational Rehabilitation Counselors** to assist young adults as they transition into employment.

The Curriculum

The Staying Safe at Work trainings teach important occupational safety and health skills to those who may have learning challenges, including difficulty reading and/or understanding abstract concepts. It uses skits, stories, and pictures of typical workplaces that allow participants to recognize hazards and identify solutions. It also uses board games to learn how to stay safe in a work emergency and to learn about their health and safety rights and responsibilities on the job. Attendees will receive a certificate of completion, optional CEU's, and access to online resources including the Staying Safe at Work Guide.

Requests for accommodations can be submitted through the registration process.

The trainer was very well prepared and knowledgeable on content. The activities were fun and reinforced the information appropriately. ~Staying Safe at Work participant
