

Baxter Bright Spots: Flex Friday

By: Avron Williams

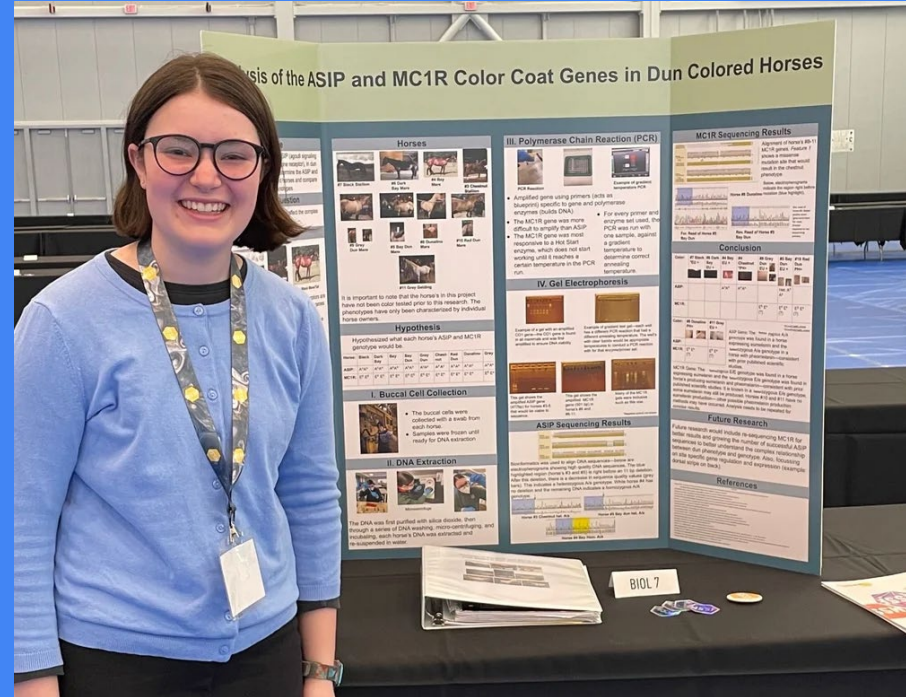

What is 9th Grade Experience?

- A collaborative entry into creating one's first Flex Friday project.
- Two different projects for each semester.
- First project is collaborative and limited to the options: animation, podcast, robotics, or research.
- Second project is open, and have 9th grade specific clusters.
- Teaches how to have a successful Flex Friday, sometimes by letting student mess up, and learn lessons through that.

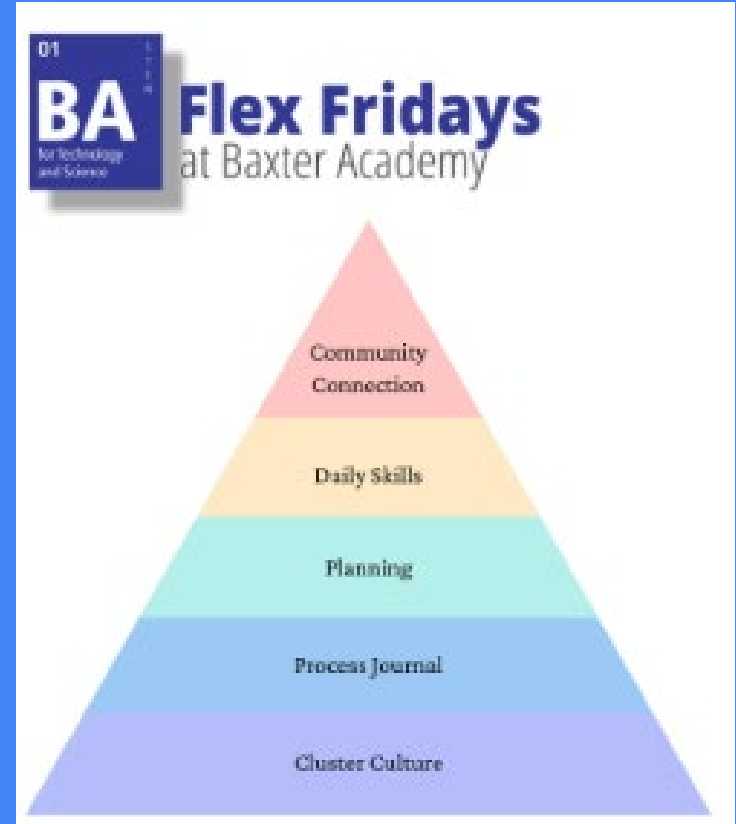

What is Flex Friday?

- A year long independent project
- Topics can range from: research, engineering, woodworking, art, robotics, writing, photography, programming, and internships.
- Sometimes brings Scholarships from Maine State Science Fair

What Skills Does Flex Friday Build?

- Project Management
- Independence
- Leadership
- Presentation
- Research and Reading
- Community Connection
- Daily Skills
- Process Journal
- Cluster Culture
- Money and Time Management

Thanks For Viewing This Bright Spots
Project.
